

LOGISTICS SERVICE PROVIDERS

WWW.PORTSANANTONIO.US/LOGISTICS

Port San Antonio is a large multimodal logistics platform and commercial center in San Antonio, Texas. The Port features an industrial airport (Kelly Field, SKF), railport (East Kelly Railport) with direct switching from Union Pacific's South San Yard and access to two class-1 railroads (BNSF Railway and Union Pacific) and a variety of industrial spaces within a foreign-trade zone (FTZ #80-10).

Rail switching services at Port San Antonio are provided by The Watco Companies. San Antonio's strategic location near the center of North America is harnessed by Port San Antonio's air, road and rail logistics assets and access to Texas seaports, including Houston and Corpus Christi within three hour drives.

The following companies provide a wide array of logistics-related services at Port San Antonio. For a comprehensive list of services, contact the corresponding business. Additional information, including support in developing supply chain solutions, is available through Port San Antonio's Business Development team at (210) 362-7800 or online at www.portsanantonio.us/logistics

THE FUTURE OF LOGISTICS IS HERE

Plus One Robotics supplies robotics software solutions to manufacturers building hardware to work alongside humans. The company supports the mission of 'always-on' logistics by mitigating the persistent shortage of manual labor and allowing personnel to flow from monotonous tasks to higher value work. Through the implementation of high performance manipulators with advanced vision capabilities, PlusOne robots bridge the gap between steady state volume and surge.
